Stuck on you

Crying all alone

Such a fundamental thing to do when you're feeling blue, i'm stuck on you.

Hiding from the world

Strange what has become of you, but I know it's true, I'm stuck on you....

I'm under your spell, look what you made me do

Running away, we can never ever look back

Searching for the storm

Even though I know, which way to go, still love you so

(Oh) what have we done?, and how could we ever explain?

Where can we go?, surely we could never return

So strange what you made me do, but i know it's true, i'm stuck on you....

Reason to believe

It's so hard to dream
 It's so hard to have purpose
 It's so easy to worry
 When you don't believe

Sometimes I don't believe in anything
 At times I feel it's just a waste
 Oh life if you have any purpose
 tell me there is reason to believe

Won't put my trust in the powers above
 Won't put my life in the hands of my fate
 No I will just do as I please
 I know it's easier when you believe

In this tired city
 No one seems to believe
 I guess they're lost
 They don't know what to fight for

I don't think they believe in anything
 It's seems they think it's all a waste
 Oh life if you have any purpose
 Please show them there is reason to believe

Won't put my trust in the powers above
 Won't put my life in the hands of my fate
 No I will just do as I please
 I know it's easier when you believe

Don't you ever deny
 the magic in your lovers eye
 the power that the gods supply
 the gift of always asking why

Don't you ever deny
 the things that make you laugh and cry
 reaching a greater high
 Open your eyes! Open your eyes! Open your eyes!

Higher, Harder, Better and More, More, More

It keeps getting harder and harder to feel good
 I want it more and harder than I thought I ever would
 And I know that I better blame my desire
 It's so hard to stop, wanna get higher and higher

Why don't we go and burn the disco down
 Why don't we go and burn the disco down
 Why don't we go and burn the disco down
 Why don't we go and burn the disco down

Higher and higher (dancing is taking me higher)
 Harder and Harder (Harder to do what I Should)
 Better and Better (But I feel better and better)
 More and more and more and more and more (So gimme some more)

Higher and Harder
 Better and More for me

It keeps getting sweeter and sweeter and I want more
 The beat's getting harder, I'm a little disco whore
 Im getting higher to the boogie beat
 Better and better every time I'm in the disco heat

Why don't we go and burn the disco down
 Why don't we go and burn the disco down
 Why don't we go and burn the disco down
 Why don't we go and burn the disco down

Higher and higher (dancing is taking me higher)
 Harder and Harder (Harder to do what I Should)
 Better and Better (But I feel better and better)
 More and more and more and more and more (So gimme some more)

Higher and higher (dancing is taking me higher)
 Harder and Harder (Harder to do what I Should)
 Better and Better (But I feel better and better)
 More and more and more and more and more (So gimme some more)

Higher and Harder
 Better and More for me

Calling out your name

I've been trying so hard
To find out where I'm going
I know life's not a pretty case
I don't keep good face

I, am calling out your name!
I, am calling out your name!

Who am I supposed to be
I am fumbling in the dark, is that easy to see?
Life is only temporary
But temporary can be scary

I, am calling out your name!
I, am calling out your name!

We are the monsters

Such a naughty robot!

*I was born in the wood, just like i should, i'm comin' straight outta sherwood
I hide in the dark, afraid of a spark, droppin' my bombs on your boulevards*

We are the monsters of our generation,
We are the monsters of the universe
We are the monsters with a new sensation
We'll tell you something that you never heard

We are the monsters that lives inside you,
We are the monsters that you really are
We are the monsters that are really true
We'll eat your insides out

You say you think you're kinda normal
You say you can tell right from wrong
But I know the thing that lives inside you
I know he's not who you think

You feel something coming over you
You know it's something powerful
Too late for you to try to stop it
Look here, theres a monster in you

We are the creatures of our consternation
We are the creatures that are gonna die
We are the creatures of your own creation
We'll tell no lies but we shatter the earth

We are the lovers that will eat your heart out
We are the lovers that will hate you later
We are the lovers that will scream and shout
We'll give you something that you've never had

You say you think you're kinda normal
You say you can tell right from wrong
But I know the thing that lives inside you
I know he's not who you think

You feel something coming over you
You know it's something powerful
Too late for you to try to stop it
Look here, theres a monster in you

We are the monsters of our generation,
We are the monsters of the universe
We are the monster with a new sensation

DISCO DREAMIN'

I think you're hiding in the dark
I think you're hiding from the things that you are
It's all too late to live in dream
It's much too late feel the things that you scream

The dawn is breaking, now decide
You say you're tired of the world spinning round
It's all too late to live in dream
So let me follow you into the deep.

Disco dreamin of you
Disco dreamin of you
Disco dreams will come true
Disco dreamin of you
Of you
Of you

I don't know what to believe
Is this for real or am I living in dream?
You've been a riddle hard to solve
Tell me the meaning of my bright disco dream

Maybe we'll hide here in the dark
Maybe we'll see if there's a chance for a spark
It's much too late to start to scream
And you're the star of my dark disco dream

Disco dreamin of you
Disco dreamin of you
Disco dreams will come true
Disco dreamin of you
Of you
Of you
